Salt Lakes Were Victorious Over Park City.

NEW PLAYERS' GREAT WORK

Williams, Barr and Hale Make a Fine Showing-Game Hotly Contested Throughout-Score 5 to 4.

Salt Lake lovers of baseball will travel some distance before they witness a better game than was played on Saturday afternoon between the Park City aggregation and Capt. Dud Risley's crowd. It was a day of victory for the home lads and right well they earned it, for the game was hotly contested from beginning to end, and was anybodys until the last. By a well placed safe hit in the seventh, Dud Risley brought in the two winning runs and the visitors could do nothing after

Some little changes were made in the Sat Lake line-up which were for the better. The term played together in a manner that bespoke hour's of steady, hard practice. Father Gimlin's crowd could have done no better, even the ardent admirers of the Lobsters admitted

The game was full of hair-raising plays and Williams and Barr the new came in for their share of them. Bale, the other late arrival showed up well, but had little chance to show just what he is capable of in an emergency. williams is about the speediest man ever seen on third base and took care of all that came his way. He caught three very difficult fly fouls and dis-played a marked improvement in throwing.

Barr, the little second baseman made Earr, the little second baseman made a distinct hit and has won a home here. In the fourth Caine sent a swift one down in his neighborhood, and it lookel like a safe one for a couple of bags, but the youngster was there and after rolling over a couple of times and doing a pretty contortionists act, managed somehow to freeze onto the sphere in time to retire the runner at first. The play was one of the prettiest things ever seen here, and in fact may be termed the event of the season. Hawley pitched for the locals and as

usual was there with the goods. He seemed to be able to take the measure

seemed to be able to take the measure of every man up, and by a combination of swift and slow balls, and his spiendid support, won the game.

"Uncle Dud" held down first in the most approved style. He has one error charged to him, but then it was not altogether his fault. Webster was at above and was responsible for the numer. short and was responsible for the num-

of pretty plays. Vith a good man in that position the Salt Lakes will have a team second to none in these parts.

Capt. Redmond pitched for the visit-ers and performed to the satisfaction of all. He allowed but seven hits and Hawley got off with six hits and struck out an even dozen. The home team made but two errors while the others doubled that number. Clarkson mpired the game and pleased every He was absolutely fair and didn't get rattled at all.

Sporting Notes.

liams, Barr and Hale, the Salt Lake baseball club has added greatly to the strength of its team, and such good men ought to be signed at once, if that has not already been done. The way

up in Satur-day's game demonstrated plainly that they are ball players in every sense of the word and can hold their own with any of them. Swifter base men than Barr and Williams are not discovered every day, and while Hale had no chance to display his ability it is evident that he is a good one. The Salt Lakers are to be congratulated upon the improvement made during the last few days and steady faithful work ought to put them at the top of the list. Ogden will have to hustle hard for the pennant this year.

The Logan Journal says: The Wellsville team, we unde be organized, and put in shape for playing. John Bankhead, the pitcher for he team, has been absent in the mis-lonary field for a couple of seasons, but will be home again this year in time to play with the team. Henry Maughan, another valuable member of the team, will also be at home this year, and will help to hold the Wells-ville colors aloft.

Jack Meinecke has been released from the Park City team and hereafter Red-mond will act as captain manager. mond will act as capiain manager. Meinecke likes baseball, but his experience this year has set him back just \$200, and he thinks that a rest is

Some men are born lucky, others are born great, says the Denver Post Mexican Pete seems to be one of the former. His defeat of Sailor Tom Sharkey has placed him in the front ranks of heavyweights. The people of ripple Creek, if reports are to be believed, are getting up a subscription to buy him a championship belt that will make the one presented to John L. Sullivan a few years ago in Boston pale in insignificance. All day yesterday the messenger boys in the great gold camp were busy carrying challenges to him, and report says that he has al-ready received offers from Tom Parson Davies, Billy Brady and Bob Watkins to star under their management. Just what Pete will do has not been fully decided upon. He may take a trip to England and meet George Crisp, the healweight champion of that country, for the lobster championship. One thing is certain, Pete won the same from Sharkey without much trouble. out much trouble.

"Uncle" Eddie Hahn is just beginning to get acquainted with the local fans, and he seems to be gradually working himself into the very good graces of his team. It won't do for him to be too nice with his men, however, for what local players need most is a captain who will teach them how to play ball, and then see that they do it. If they won't do it, then get some one who will—there is a lot of good ball material in Logan, and the success of the game won't depend on any one man.-Logan Journal.

The mail clerks and carriers in this city have organized into rival baseball teams and will line up for a battle next Sunday afternoon.

GOMPERS REPLIES TO SCHWAB Labor Organizations Try to Establish a Minimum Wage Only.

New York, May 13.-Samuel Gompers. president of the American Federation of Labor, according to the Washington rrespondent of the World, made a tatement last night in reply to asser tions of President Schwab, of the Unitindustrial commission that labor organizations put all men on a level and prevent one from advancing until all advance. Mr. Gompers said:

It is a misstatement to say that we are endeavoring to fix one price for the rages of workingmen of any one class. What we aim at is to establish a min-imum of wages, below which a workingman will not be obliged to labor. Be-cause a minimum is established it does not follow that a worker cannot receive more than that.

"We are engaged in promoting the general welfare of the working classes. and are aiming at their general improvement, rather than trying to get one preferred position for some particu-lar individual. It may be true that there are cases where a laboring man advances beyond his co-laborers, but it is usually at the expense of others Better the conditions of the craft generally and all will profit."

Washington, May 12 .- Mr. Leishman, our minister to Constantinople, up to this time has not communicated with the state department respecting the trouble at the Turkish capital over the efforts of the porte to suppress the foreign postoffices. Inquiry here discloses the fact that the United States is one of the few great powers which does not maintain an absolutely independent postal service between stantinople and the outside world. thers have a system of closed mail nitted to pass through the Turkish ands while in transit between the borer and the embsasies at Constanti-

The privilege is not limited to embassy attaches or official mail and this fact has long been a matter of discontent for the Turks, who, having sought to improve their own postal service by placprove their own postal service by plac-ing it under the direction of German experts, feel that they have a right to get rid of these foreign offices, which they claim facilitate smuggling.

## READING THE HAND.

Professor Sterling has already read the palms of a number of leading citizens. A number of them will be pub-lished from day to day. Out of this list the following have been selected

who is now in the city and is recognized by press and public everywhere. All are pleased and delighted with his readings. Multitudes visit his parlors daily and are happy. Palmistry is an exact science, and it excites the wonder and admiration of the most skeptical. Professor Sterling can be consulted on all matters pertaining to the welfare of the human race. Your hands reveal all questions of life, pertaining to marriage, sickness, death, changes, travels, divorces, separations, lawsuits, business transactions, wills, deals, mortgages, lost or absent friends, mining ventures, etc. Consult Professor Sterling. He is acknowledged the greatest living authority on palmistry and all his work is done in manuscript form, and is strictly confi-

dential. Office hours are 10 a.m. to 3 p. m. daily and Sundays.

Palmistry has been reduced to a science, and following are some of the results obtained by Professor Sterling of well known persons in this city:

If you are subject to headaches which medicine falls to permanently cure have your eyes examined. If caused by eye strain glasses will cure them. A slight imperfection in the nerves or muscles is often sufficient to cause an almost constant headache. Correctly adjusted glasses put the eyes in perfect focus and relieve all strain—cause removed—headache cured.
